I	**Data Characteristics**	
I.1	**Description of the data**	The data in this project will be created in collaboration with: Bernhard Kurz - Contactperson - null@student.tuwien.ac.at - ID: () One dataset will be created. This dataset is titled "NULL" and described as follows: Data is collected to analyze the time series of energy balancing as well as traffic statistics. This is done for an experimental research project for a couse at the university. The datasets resource type genre is "dataset" and it's language is specified as "en" . It was issued on NULL. Keywords for the dataset are: Breast Cancer, Arrhythmia The data will be created over the course of a single project: Project "NULL": NULL The project starts at NULL and is due to end at NULL. It will be funded by NULL (NULL), with the Grant ID NULL (NULL). The funding status is curently "NULL".
II	**Documentation and Metadata**	
II.1	**Metadata standards**	NULL Language: en ID: https://github.com/buboh/data-stewardship-ex1 (URL)
II.2	**Documentation of data**	One technical resource is needed for this project: • ID: 0 (custom): unknown
II.3	**Data quality control**	• Both datasets do not make use of persistent and unique identifiers.
III	**Data availability and storage**	
III.1	**Data sharing strategy**	ID-1: (HTTP-ORCID) Data Stewardship DMP Exercise: Two public available data repositories. Access to the data is open. It is in text/csv format with a size of <10MiB bytes where is is available until unknown .

III.2	**Data storage strategy**	**Cost(s)** ● DMP costs: 0 EUR Resources required to deliver the plan. Dataset: "NULL" Data Stewardship DMP Exercise This distribution is hosted by "Kaggle". This host is located in US. It is certified with "unknown". It supports versioning. The backup type used by the host is unknown. The data is backed with unknown frequency. The host provides persistent identifiers from the ['doi'] system.
IV	**Legal and ethical aspects**	
IV.1	**Legal aspects**	License: ● MIT License Valid from: 2019-04-22
IV.2	**Ethical aspects**	Personal data: unknown Preservation statement: Must be preserved to keep research & development between stakeholders intact. Security & privacy: not specified not specified Sensitive data: unknown Ethical issues: unknown NULL NULL
